

## Peat+ Powder Peat

Net Weight: 495 oz case (6 x 82.5 packets per case)

READ ALL DIRECTIONS BEFORE USING THIS PRODUCT

### Application Directions

- Apply 5.5 oz per 100 lbs of seed.
- Each 495 oz case treats 9,000 lbs of seed and each 82.5 oz packet treats 1,500 lbs of seed
- This product contains a sticking component to aid in the adhesion of inoculant to the seed.
- This product can be mixed in a drill box or applied to the seed and mixed while being augured into the drill.

### Drill Box Method

- Fill drill box 1/4 or 1/3 full of seed and mix inoculant thoroughly until seed is uniformly coated. Continue with same process until drill is full of seed and thoroughly inoculated.

### Auger Method

- Apply the product at the recommended rate through a dry powder applicator into the hopper of an auger as the seed is being augured into the drill. The inoculant will mix thoroughly onto the seed from the action of the auger.

### User Tips/Precautions

If planting soybeans for the first time (virgin soil) or if any of the other adverse conditions exist; high pH soils (above 7.3), land re-entering production after CRP, long rotations or crops grown in areas with marginal rainfall or arid climates, it is recommended to increase the application rate per acre of the powder peat or double inoculate using seed applied liquid or granular inoculants.

Product performance may be reduced in soil with high nitrogen levels or when applied with high levels of nitrogen fertilizer.

### Storage & Handling Recommendations

- Store bags in cool (40-70°F) dry location and out of direct sunlight.
- Avoid freeze/thaw conditions.
- Store bags flat, off of the floor and avoiding prolonged direct contact with cold damp surfaces.
- This product has a one-season shelf-life and should be used before expiration date.
- Use appropriate personal protective equipment and clothing such as gloves, safety glasses and dust respiration devices when handling the product.

### Product Guarantee

This product contains 200 million ( $2 \times 10^8$ ) *Bradyrhizobium japonicum* per gram.

Not a plant food product.

Not recommended for use as a fertilizer substitute.

### Limited Warranty

Danstar Ferment AG / LALLEMAND PLANT CARE ("Danstar") warrants that this inoculant (the "Product"), will contain the minimum number of live cells per milliliter/gram as specified on the Product label at the time the Product is first sold by Danstar. Danstar makes no warranty as to the Product's viability or performance since the storage, use and application of the Product and growing condition are beyond the control of Danstar.

To the extent permitted by applicable law, Danstar makes no other warranties of any kind and hereby disclaims all other warranties, whether oral or written, express or implied, including without limitation, the implied warranties of the merchantability and fitness for a particular purpose and

the warranty of non-infringement. Buyer of the Product assumes the risk to persons and real or personal property arising from the use, application or handling of the Product or seeds treated with the Product.

Buyer's exclusive remedy for any and all losses, injury or damages resulting from a breach of this Limited Warranty shall be, at the election of Danstar, either the price paid by buyer for the Product purchased directly from Danstar, or the replacement of such quantity of the Product. Danstar shall not be responsible for any liabilities, damages, expenses, costs or other losses, including without limitation, loss of profits suffered in connection with the use of the Product and in no event shall Danstar be liable for any incidental, consequential, special or punitive damages to the buyer or any third party.

Buyers of the Product are deemed to have accepted the terms of this Limited Warranty upon opening the container containing the Product, requesting the Product to be applied to the seed, or use of seed to which the Product has been applied, whichever is earlier. The terms of this Limited Warranty may not be varied by any oral or written agreement.
